

Friday 18/12/20 Interview with Becci Godfrey via Zoom on behalf of Peace Project (Facebook group).

Theme "The Nature of Numbers"

There's no doubting 2020 has been an "interesting" year. Could the numbers in this year's date have something to do with it?

For the final Peace Project interview of the year, Becci is talking with Consultant Numerologist Jane Alton. Jane will explain why shifting from 1999 years of there being a 1 at the front of the year, to there being a 2 at the front of the year impacts us all. We'll also be talking about why 2020 has showed up in the way that it has and what to expect from 2021.
