

## **2025: A 'Perfect Square Year'**

If you are currently feeling overwhelmed, you may be interested to know that 2025 is a significant year of powerful energies. Multiple significant dates this year include 'The Lions Gate Portal' from 28/07/2025 to 12/08/2025 (peaking 08/08/2025) and 'Nostradamus's Final Cipher' with a potential date of 13/08/2025.

### **The 'Perfect Square Year'**

This year is a 'Perfect Square Year', the result of squaring 45 ( $45 \times 45 = 2025$ ).

In numerology, the '45/ 9' represents a potential turning point, where the higher mind (5) may be born of the existing structure (40), and potential wisdom can be gained through the understanding of the human condition. The 25 (in the year 2025) further emphasises this understanding, as '25/ 7' represents the birth (20) of the higher mind (5), and the birth of consciousness which is achieved by listening to our inner guidance (7).

The number 45 results in the number 9 ( $4 + 5 = 9$ ), which is characterised by selfless generosity.

The number 9 accumulates all the knowledge and experiences gained from the previous cycle of 8. The job of the 9 is to offer the benefit of this experience and wisdom to those around it. The 9 then returns to the potential (or zero) so a new cycle can begin, moving from focus on the self to potentially helping humanity.

The Inner Work and Challenge for this year is also a 9 ( $2 + 0 + 2 + 5 = 9$ ). This means that the potential for reflection and introspection may also apply on a personal level, which could result in collective awakening and broader alignment with universal goals.

The 9 represents the end of a cycle and is an opportunity to reflect and learn from all that has been experienced in the previous 8 years (from 2017 to 2024).

This 9 year is poised between endings and beginnings, on the edge of rebirth, and before the beginning of a new cycle ( $2 + 0 + 2 + 6 = 10/ 1$ ). The 9 needs to ensure all the experiences gained are recognised and used, before returning to the potential (or zero), so the new cycle can begin.

The 'Perfect Square Year' is a relatively rare occurrence, with the last perfect square year being 1936 ( $44 \times 44 = 1936$ ) and the next one not occurring until 2116 ( $46 \times 46 = 2116$ ).

Examples of previous 'Perfect Square Years' include:

- **1936** ( $44 \times 44$ ): The beginning of the Spanish Civil War  
The '44/ 8' in Numerology represents 'survival', as new structures (4) are born of an existing structure (40). During this year, re-evaluation is required to bring in new strategies and organisation (8). The 4 in numerology represents 'harmony through conflict'.
- **1849** ( $43 \times 43$ ): The Anglo Sikh War and the Californian Gold Rush

The '43/ 7' in Numerology represents transformation and a willingness to adapt, as creativity (3) is born of an existing structure (40). This encourages potential for synchronicity and intuition (7).

- **1600** (40 x 40): Establishment of the East India Company

The East India Company was a strong, disciplined and organised structure (4) which dissolved in 1874, but was (at its peak) the largest corporation in the world. It had its own armed forces in the form of the company's three presidency armies, totalling about 26,000 soldiers, twice the size of the British army at certain times.

- **1225** (35 x 35): The Magna Carta and the Charter of the Forest were reissued

The reissuing of these documents by King Henry III established the definitive versions of these foundational documents that limited the king's power and protected the rights of the people. The '35/ 8' in numerology represents new thinking (5) born of creativity and communication (30). New strategy and organisation (8), the result.

### **The opening of the 'Lions Gate Portal'**

In 2025 the 'Lions Gate Portal' opened from 28 July to 12 August. This event happens every year and is when the Sun is 'in Leo' and Sirius, Orion's Belt and the Earth are all in alignment.

This year, the Lions's Gate Portal aligns with the full moon in Aquarius, further encouraging us to align with humanitarian causes, to be our true authentic self, and to trust our instincts. These qualities align closely with the 9. During this time, we may feel drawn to originality or unconventional thinking and become keenly aware of how we are being influenced by society. We may demand that our leaders lead not from image, but from integrity and act for the collective good.

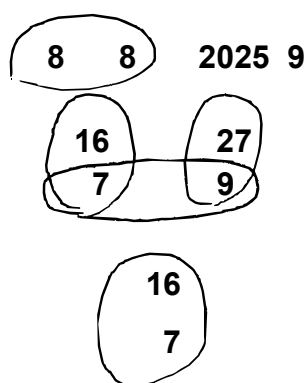

The peak of this opening on the 8<sup>th</sup> of August (08/08/2025) acted as a potent manifester, allowing us to boldly and optimistically open new doors to opportunity.

The number 8 in numerology represents karma, it is the one number that has no end, and on its side represents the symbol for eternity. The number 8 also represents constant movement, as light (or spirit) goes into matter to then re-emerge, bringing everything to the surface to be looked at and re-evaluated. The 8 represents the strategist and organiser, tirelessly moving back and forth, constantly knocking down and rebuilding.

With the number 8, balance between the material and spiritual realms becomes key, and we may feel forced into action.

A double 8 represents 'the masters of karma' and is a generator, telling us of the destruction and rebuilding that is required to produce a perfect balance between the material and spiritual realms. This energy can make us feel 'back at square one', there may be a need for us to retrace our steps, re-evaluate our goals and rebuild from the beginning, learning from our mistakes to better achieve our goals.

Looking at this date in more detail:

**First Goal (8 + 8) = 16/ 7**  
**Inner Work (2+0+2+5) = 9/ 9**  
**Life Path or Mission = 25/ 16/ 7**

This date demonstrates how the potential destruction and rebuilding of the great generator (88) takes us back to spirit (7) and encourages us to listen to our inner voice. We need to balance our responsibility to ourselves (1) with our responsibility towards others (6) so that we can rediscover our authentic selves (7). This aligns with the qualities encouraged when the Full Moon is in Aquarius, encouraging us to search within for our own truth.

The Inner Work or Challenge of this date (9) encourages us to focus on helping humanity. Ideally letting go, with love, all that no longer serves us. This Inner Work is expressed as '27/ 9', which represents 'wisdom from feelings and emotion', as great spirituality (7) is born of emotion (20), encouraging the birth of wisdom (9).

From this date, '79/ 16/ 7' is generated. The 9 in this position representing a massive letting go, as we continually embrace change, in pursuit of our true authentic self, trusting our inner voice to return us to our truth.

The '79/ 16/ 7' in numerology represents 'Change is truth, Life is Change, but the truth remains'.

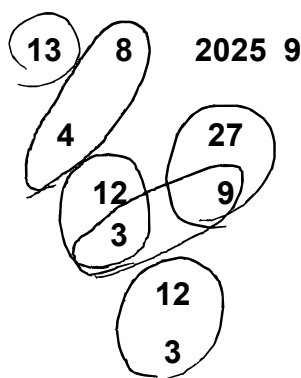

The Life Path or Mission that comes from this date (25/ 16/ 7) further encourages the birth of consciousness (25), as we potentially focus more on establishing a balance between material and spiritual, that will benefit everyone, not just a few (16/ 7).

### 'Nostradamus's Final Cipher'

Directly following 'The Lions Gate Portal', some believe 13 August 2025 to be the date expressed in Nostradamus's 'Final Cipher' (or seal).

This 'Final Cipher' (or seal) is seen by some as Nostradamus's final riddle and is not included in his published works. This cipher was found in the archives beneath the Abbey Saint Remy in Province and was found to be rhythm based, not textural. It responded to harmonic frequencies, and when the tones aligned, a sequence of astronomical data emerged: a specific time signature and the date of 13 August 2025.

Looking at this date in more detail -

**First Goal (13 + 8) = 21/ 3**  
**Inner Work (2+2+2) = 9/ 9**  
**Life Path or Mission = 30/ 12/ 3**

The starting point for this date, or the day number, is 13 (1+3 = 4).

In Numerology, '13/ 4' represents great creativity (3) influencing the will (1) to transform an existing structure (4). The '13/ 4' also represents 'necessity is the mother of invention'.

The 4 resulting from 1 + 3, is then influenced by the 8<sup>th</sup> month.

The 'First Goal' that comes from this date (13 + 8) is '21/ 3', this can be interpreted as great will (1) influencing emotion (2), potentially 'sending us all over the place' creating lots of ideas (3), as well as drama. A characteristic of 21/ 3 is a need to be the centre of attention.

The 8<sup>th</sup> month also encourages '48/ 12/ 3' to be generated. The 8 in this position represents a massive re-evaluation of the existing structure (40), resulting in continuous ups and downs. The resulting 2 in this position (12/ 3) encourages love wisdom (2) (rather than emotion, we learn compassion), to influence the will (1) and for new creative thinking (3) to result. Overall, '12/ 3' encourages us to look at the existing structure from a completely different perspective. This combined with the re-evaluation process, instigated by the 8 (which comes from 7 that dominated the previous significant date), is essential if we are to distinguish between drama and illusion or integrity and truth.

The '12/ 3' also represents '3 x 4', which can be interpreted as the trinity (3) made viable (4).

This '12/ 3' also encourages balance between masculine (1) and the feminine (2) energies, initially within ourselves and then within society, so new co-operative ventures can result.

The Inner Work or Challenge of this date (9) encourages us to focus on helping humanity. Ideally, letting go with love, all that no longer serves us. This Inner Work is expressed as '27/ 9', which represents 'wisdom from feelings and emotion', when great spirituality (7) is born of emotion (20), encouraging the birth of wisdom (9).

From this date, '39/ 12/ 3' is then generated. The 9 in this position represents a massive letting go as we look from a new perspective, ideally focussing less on drama and illusion in pursuit of integrity and truth, in ourselves as well as in our leaders.

In summary, despite the fears arising from the loss of old structures, amongst constant movement, we continue boldly in new directions and unknown territory. We are seeing a divide between those

embracing new technologies and those unwilling to challenge old mindsets. Ultimately, we can only get things right by getting things wrong. The wisdom and compassion we can gain along the way may help us to better understand the 'human condition' (a characteristic of '45/ 9').

With enough people pursuing integrity and truth, while acting for the collective good, there is potential for a collective awakening and broader alignment with universal goals.

'Necessity is the mother of invention'.

Hope is a decision.
